Passing grade for this exam is 74.

This study guide is intended to be a tool for identifying key areas of emphasis in studying for the CFE 1 test. This test covers materials and concepts in the 2019 Edition of the *Financial Condition Examiners Handbook* (FCEH) published by the NAIC. The study guide should be used as a starting point and not as a complete listing of topics that will be covered within the exam. Note: Topics within the FCEH that are not shown, may be covered less extensively in the examination.

CFE 1 focuses primarily on the materials in the FCEH pertaining to risk focused examinations. The FCEH serves as the sole source of examination material for this examination. The FCEH and this study guide are required reading for the CFE 1 course. All of the questions on the test have been developed from information included in the FCEH. The study guide has been developed to assist the examiner in focusing on the concepts and sections contained in the FCEH.
